" all Ivory, 5 inch	"	35

HALL'S GOLD AND COLOR ERASER

For Removing Gold or Color that has been Fired in.

This eraser is used to remove gold or color from china that has been fired in. It contains no hydrofluric acid, therefore will not burn or injure the hands or clothing, a bottle should always be kept handy in the studio, for very often a spot of gold or color is discovered on a very handsomely decorated piece of china after firing; this can very readily be removed by simply applying a spot of this eraser with an old brush or match stick, and allowing it to stand for few seconds, then wipe off with a wet sponge or cloth.

To erase large surface of color, either painting or backgrounds, apply with an old paint brush, and rub lightly until all color mixes with the Eraser, then wash thoroughly with a sponge and warm water.

Mix the Eraser well in the bottle before using by either shaking or stirring, and use from the bottle only. Keep in a cool place and well corked when not in use.

In one ounce Patent Ceresine Bottles, half filled	$ 30
" " " " " full one oz.	50
In four ounce bottles	1 50

"If it isn't right, we'll right it."

PENCILS

THESE Pencils contain the purest and best graphite, which equals, if not excels, goods of the highest order made in foreign markets.

The leads are efficiently compressed and specially prepared and thoroughly pure, fine, and free from grit.

They are made in four different degrees of softness and hardness, and are specially adapted for draughtsmen, architects and artists.

The grades are as follows:

No. 1, Soft and Black.
No. 2, Medium.
No. 3, Firm.
No. 4, Hard.

Hardmuth's Pencil Point Protector and Short Length Extension

Without Pencils

This Protector will be instantly appreciated, especially by all who use Copying Pencils. It prevents the lead from breaking in the pocket, and protects the clothes from becoming soiled by coming in contact with the copying lead. By its use, short ends of pencils need not be thrown away and wasted, as they can be used to the last inch.

Protectors, without pencils.....Price each, $ 05, Per Dozen, $ 60

"If it isn't right, we'll right it."

DRAWING MATERIALS.

Webster Pencil Sharpener No. 5

Simple in Construction, Effective in Its Work

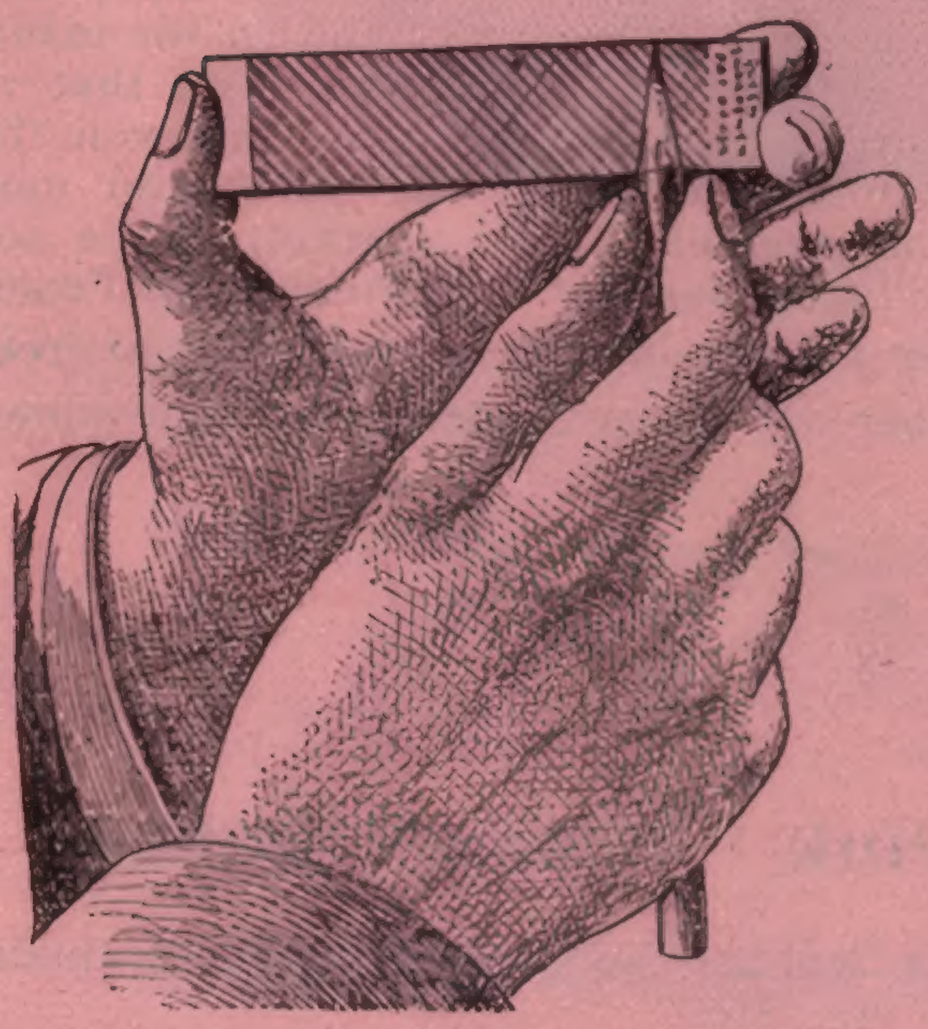
Price of Webster Pencil Sharpeners .....Each, $4 00

"If it isn't right, we'll right it."

DRAWING MATERIALS.

The Queen Lead, Slate, Crayon and Pencil Sharpener and Paper Weight

WILL ALSO REFACE INK AND PENCIL ERASERS

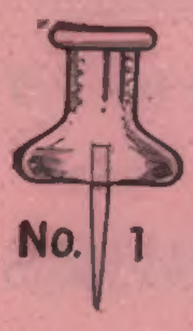


Used by Lawyers, Draftsmen, Artists, Bookkeepers, Clerks, School Teachers, and all requiring the use of Pencils.

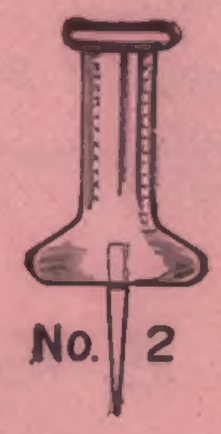
It will outlast a half dozen of any fifty-cent sharpener. It is the only practical Pencil Sharpener ever put on the market. It never gets out of order; never wants sharpening; no breaking of points; no soiled fingers; always ready for use.

Price.....50 cents.

Hold as shown in above cut, with stamped end from you; commence on rough or double-cut side, and finish on smooth or sigle-cut side. The cutting is done as you draw the pencil towards the thumb.



MOORE PUSH-PINS



Supersede to a great extend the Tack and Hammer

They consist of fine, round, tapered steel points which are firmly embedded in handles of polished glass.

Moore Push-Pins enable one to fasten up the enumerable little things on plaster walls and painted wood-work without driving a tack or nail.

The handles are so shaped as to allow of a firm hold with the fingers, and the Pins can readily be inserted into wood or plaster with a slight awl-like motion of the hand.

They are strong and ornamental, and can be easily withdrawn, leaving a scarcely perceptible mark in the wood or plaster. In hotels, boarding schools, and other places where the use of tacks and nails in the walls is prohibited, Moore Push-Pins are allowed.

They are thoroughly practical and supply a long-felt want.

Price of either size in ½ dozen Packet.....10 cents.
" " " 1 " Box.....20 cents.

"If it isn't right, we'll right it."
